

## **Interior Concept Designer (base in Beijing, China)**

DELSK Group was founded in Cologne, Germany, in 2008, and the headquarters of Beijing Asia-Pacific Regional Center was established in the same year. As a global investment company, DELSK is one of the first companies to introduce European real estate investment business to China. After more than ten years of development, DELSK has become a comprehensive investment service platform which integrates real estate investment management, fund investment management, financial industry management, professional consultation and other services.

Since the establishment of DELSK Group, it has assisted more than 13,500 groups of enterprises and individual customers, with a total management asset of nearly 26 billion US dollars. Business assets cover more than 30 countries and regions on four continents worldwide. Branches have been established in 24 regions. At the same time, 2000 + large distribution channels have been established in 15 countries and regions in mainland China and Southeast Asia. Strategic cooperation has been reached with multi-national governments, real estate developers, lawyer buildings and large financial institutions.
