

Searching for a Japanese teacher

Hello!

My name is Marina, and I work as a family assistant. We are currently searching for a personal Japanese teacher for an enthusiastic 11-year-old girl in Barcelona.

Our preferences include:

- Lessons are primarily held **offline at our home**, with the option for online sessions when necessary due to scheduling or other commitments.
- A female teacher would be ideal to create a comfortable learning environment.
- **Native speaker** proficiency in **Japanese**, along with great **English skills**, as our student is more fluent in English than Spanish.
- Flexibility in scheduling to accommodate the student's availability and any potential changes.
- Above all, we value kindness and a genuine passion for teaching children.

Our address in Barcelona is Av. del Tibidabo, 08035 Barcelona, Spain.

I will be happy to answer any of your questions and choose a time for the first lesson together!

And we will also consider your suggestions for the cost of such lessons.

You can reach me via email (pa@stavnitser.com) or **WhatsApp** at +380675566706.

We look forward to hearing from interested candidates and appreciate any recommendations or referrals.

Thank you!

With love,
Marina (Family PA)
