## IA AND ENGINEERING DRIVING RESPONSIBLE INNOVATION

As artificial intelligence becomes a defining force in modern engineering, organizations are increasingly challenged to balance innovation, scalability, and responsibility. AI is not only transforming engineering processes, -enhancing efficiency, quality, and speed-but is also shaping broader societal, ethical, and regulatory landscapes.

This event, hosted by Casa Asia and HCL Tech, in collaboration with the Consulate General of India in Barcelona, Acció, Tech Barcelona, La Caixa and the Spain India Council Foundation, forms part of the India-Spain Year 2026, celebrating bilateral collaboration in technology and innovation.

The event will bring together industry leaders, policymakers, and technology experts to explore how AI can drive excellence in engineering and other fields while remaining trustworthy, transparent, and socially responsible.

Through keynote interventions and moderated panel discussions, the event aims to:

- Highlight the importance of Responsible AI in building trust and long-term value
- Explore the role of policy, regulation, and cross-sector collaboration within the India-Spain technology partnership
- Share enterprise perspectives on aligning innovation with societal impact
- Examine how AI is redefining engineering excellence across industries
- 

By integrating the objectives of the India-Spain Year, this event positions AI not merely as a technological enabler, but as a strategic force guided by responsibility, collaboration, and purpose—ensuring engineering excellence contributes positively to business, society, and international technological leadership.

# PROGRAMME

*The event will be conducted in English without simultaneous interpretation.*

## **10:30 – 11:00 | Registration**

### **11:00 – 11:15 | Welcome Remarks**

José Pintor Aguilar, Director General, Casa Asia  
Inbasekar Sundaramurthi, Consul General of India in Barcelona  
Joan Rosás, Director, International Relations, CaixaBank

### **11:15 – 11:25 | Institucional Address**

María Galindo García Delgado, Secretary for Digital Policy, Government of Catalonia
